

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy, then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

SSS cleanses the blood of impurities, and at the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently all manner of blood and skin troubles.

Mr. E. H. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Siegfried, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the Boils disappeared.

ARE A SORE LOT

However, Detroit Ball Players Work Hard in the Cold Wind.

Gleason Compliments the Bunch on the Spirit Shown in Practice—Koch Is Disgusted.

To look at the Detroit players working at Bennett park this morning one would hardly have thought that they were the sorest bunch physically outside of any hospital. They have not had a really warm day since they started, and Monday's game, followed by two sessions of practice yesterday, made their muscles feel very much as though somebody had tried to kick them full of holes. Notwithstanding this handicap there was will in the work and everybody was hustling.

"Sore," remarked "Kid" Gleason, "I should think I was sore. However, it's a case of the hair of the dog being good for the bite, and I will work that all out in a few days. If we could only have a spell of warm weather we would be all right, but as it is we are getting into shape just as fast as anybody could under the circumstances. I anticipate a very pleasant season here as all of the boys are willing and there is not a laggard on the team. That counts for a lot. When you have good ball players who work in a half hearted way you cannot win, but when everybody goes at it as though he owned the club the figures on the score board will tell. We'll win all right enough; they can't beat this bunch."

While the players are trying to get up a sweat in the cold wind from the north the laborers are getting ready for the addition to the grand stand. The bleacher extension has been completed and this morning the holes were dug for the masonry which is to support the iron columns of the big stand. All of the lumber is being cut into shape and no time will be lost when the frame work is in place. It will all be done in ample time for the first game, two weeks from today. Meantime, during the exhibitions, it will not interfere with the present stand or the field.

Campau and Scheibeck are hustling for talent for Saturday's game and they expect to give the Detroit a battle for their lives. Two good pitchers will be employed and all of the men are in training at the D. A. C. so as to be in shape for the struggles on Saturday and Sunday.

Gus Koch says that dealing the bank, rolling the wheel and manipulating the cards in a game of draw are parlor pastimes alongside the doings of the National league magnates. His costly base ball experience has forever cured him of the desire to break into the game and in the future he will be content with grabbing the rake-off in his gambling house. He thinks a brace faro bank is absolutely honest compared with the base ball men and their methods.

Gus settled up every claim in Detroit outside of his lease with the D. A. C. and in the future he will sit in the lookout chair and let the others have the national pastime to themselves.

YACHTS WILL MEET.

INDEPENDENCE TO BE IN THE

Importance when compared with the many advantages secured by this slight advance in the original outlay. A combination of chainless wheel and coaster brake is an ideal mount for a woman.

Terry Is on His Way West.
NEW YORK, April 10.—Terry McGovern left last night for San Francisco. He is matched to fight 20 rounds at 124 pounds, with Oscar Gardner, at the Twentieth Century Athletic club, April 30.

BASE BALL NOTES.

Connie Mack's team is fast getting into shape. Jack Ryan is catching good ball for St. Louis and throwing well.

Georgetown and Yale played a 10-inning tie game, 1 to 1, yesterday.

Sugden will catch for Mack's team after all, as Comiskey does not need him.

Patsy Dillard has reported to Comiskey and will probably play in the outfield.

Sam Johnson has called off the gambo between Chicago and Milwaukee, as it may affect the attendance at the championship struggle between the two teams.

Chicannet papers say Jimmy Barrett was one of the fastest men in the league going to first base, but it is decidedly a question if he could cover that 90 feet of ground in shorter time than Dick Harley. Harley, perhaps, is a quicker starter than Barrett, and he is every bit as fast when he once gets going.

The Brooklyn club owners make no bones about their efforts to make their players jump American league contracts. They say that all's fair in love and war and that it was right for the "deserters" to jump their contracts to get on the cash when just as proper to ask them to jump back again. In other words, contract-jumping is not frowned on by the Brooklyn club nor by several other clubs in the National league.

Denzer has not arrived in New York, and even if he comes not much is expected of him. Not so long ago Freedman gave out a statement to the effect that where the American league had thousands the National league had millions of dollars to lose in a fight. But Freedman, because of his unwillingness to put up the cash when it came to a pinch, lost Hawley, Carlick, Mercer, Garvin and Sparks—five pitchers, who would have compared favorably with any corps in the league.

Rely, the Milwaukee pitcher, is made of the right stuff, and if all players were like him base ball would stand very much higher in the estimation of the public than it does just at present. According to a Milwaukee dispatch, a well-known National league manager last week approached Rely with a big offer to jump his contract. Rely, without mincing words with the tempter of the bribe, gave him five minutes by the watch to leave his presence or stand for a good licking.

GENERAL SPORTING NOTES.

Tommy Ryan has eldestepped a match with McCoy.

Coach Yost is making such a hit at Ann Arbor that Bill Lea is getting to be a dim recollection.

The emperor of Germany will not offer a Heligoland cup this year on account of Queen Victoria's death.

Arthur W. Ross has secured one of the best rear men for his motor tandem that could be found—W. E. Tenzler.

The second trial of the cup defender Illinois yesterday showed her to be the fastest boat of her inches ever seen around Boston.

The boys' classes at the D. A. C. will give an entertainment under the direction of Trainer John A. Collins on Friday night.

"I shall be agreeably surprised if Penn wins," Henley says Ed Hanlan. "It will mean a triumph of tremendous pluck over difficult obstacles."

A CUP DEFENDER

Truman Newberry Is Now Anxious to Own a Great Sailing Yacht.

He Has Asked the Herreshoffs, Builders of the Constitution, to Make Him One.

The Detroit and the Cadillac may not be the only yachts to represent this city in the trial races off Chicago which are to determine the defender of the Canada's cup now held by the Genesee. So great has the interest become in the sport that it is probable another yacht will be built and hall from here, providing the world-famous Herreshoff can be persuaded to design and build her. It is for that purpose that Truman H. Newberry is now in the east and word is daily expected of the success of his mission.

Mr. Newberry wants to be in the race and some time ago he corresponded with the Herreshoffs relative to the building of a 35-footer. The response was to the effect that the building and tuning up of the Constitution would take so much time that they would hardly be able to do the job, much as they would like to. Mr. Herreshoff does not want to turn out any boat without giving his personal supervision to the work and he feared he could not do this.

This news was depressing, but Mr. Newberry did not stop there. He has been a good customer of the Herreshoffs and went down to see if they would not strain a point in his favor.

"I am quite confident he will succeed," remarked an intimate of Mr. Newberry who has known of his plan. "He thinks he can induce them to turn him out a boat, and if he is successful you may rest assured that she will be a fast one. They have been very lucky with their boats and Mr. Herreshoff think if he could win the Canada's cup he would have accomplished what no other builder over has, by winning the two great prizes. This year, more than any other, he would like to be in the race because Crownshield has designed both the Independence and the Illinois."

"What model would she be? Oh, I don't know, but roughly I think she would follow out the lines of the Constitution as much as possible. This would give Detroit two centerboarders and a finkeel and make racing hum around here no matter what happens in the trials."

Nothing is given out at Mr. Newberry's office about his plan and those who have talked the matter over with him at the Detroit club have little to say about it.

Work on the D. Y. C. syndicate boat is progressing very rapidly at the Michigan Yacht & Power Co., and she will be in the water by the first of next month, as all the material is there and men are shaping it and putting it on as fast as they can. No word has come recently from the Cadillac being built in Massachusetts, although it is known that she is well under way.
