

SABR RESEARCH TOOLS - PROQUEST HISTORICAL NEWSPAPERS SURVEY

Remote access to *HeritageQuest* and the *ProQuest Historical Newspaper Collection* will no longer be offered to historical and genealogical societies, in SABR's case after our contract expires on December 31, 2006. In order to mitigate the loss of this member benefit caused by this development, we are compiling a listing of available online resources to share with members on the sabr.org website. ONSITE ACCESS refers to computer access available to researchers from inside the main library location or its branches. REMOTE ACCESS refers to computer access available to cardholders from home/office utilizing a portal on the library's website. Your librarian will be happy to help out.

Please complete a separate worksheet for each library system in your region.

#1. Name of regional public, university and community college library.

#2. Primary location of library (City, ST) _____
